

## **Sunday at the Springfield Specialty Show**

Come one Come All

You are invited to participate in a collection of DNA for a study being conducted for Cancer research. They are looking for the marker for Lymphoma and Melanoma in all Sporting dogs.

Its quick, painless and easy and best of all its FREE!

You pick up a swab, collect a sample from your dog's cheek, replace it in the envelope and deposit it in our collection box.

No pedigree needed, No papers to fill out.

CVVC Health Issues Committee will do the rest.

Place: CVVC Specialty Show West Springfield MA

Date: November 27, 2011 all day.

### **TAIL COLLECTION AT THE SAME SHOW!**

Bring your saved and frozen tails to the show. The health committee will be collecting them to be sent to the University of Minnesota.

Make sure that you have each tail marked with the AKC name of the puppy and the parents as well as the AKC registration of the puppy if you have it or of the parents as well as a 3 generation pedigree of the puppy.
